

Display bench for plants and flowers h757_31

Lightweight bench for low loads with fiberglass top. Dimensions: W 150 x D 100 x H rear foot 86.5 cm and H front foot 64 cm.

The **h757_31 display bench for plants and flowers** is designed for contexts where a **lightweight, functional, and visually effective** solution is required, ideal for the display of **flowers, plants, and light fruit** in markets, nurseries, fairs, or temporary setups.

Built with a **30x18 mm profile** and **40 mm oval tubes**, the bench is equipped with a **special insert profile** and shaped edge, which provides sufficient structural stability to support **low** loads, making it perfect for light products. The design features an **absence of reinforcement on the top and on the two front legs**, a design choice that makes it **more agile and manageable**, intended for operators who need a station that is easy to transport, assemble, and reposition quickly.

The support top is made of **blue heat-bonded fiberglass**, a **resistant, washable, and hygienic** material, ideal for contact with plant products and exposed to humidity or external conditions. The model shown in the photos does not include the fiberglass, but **fiberglass** is nonetheless **included in the supply** of this **model**.

The inclination of the top is guaranteed by the **height difference** between the rear foot (86.5 cm) and the front foot (64 cm), optimal for improving the **visibility and accessibility** of the displayed products.

Order the **H757_31 display bench** now: ideal for the light display of flowers and plants. Request a quote for multiple supplies.

FAQ:

1. **For which products is this bench recommended?**

It is suitable for the display of plants, flowers, and light fruit.

2. **Is the bench inclined?**

Yes, thanks to the difference between the rear height (86.5 cm) and front height (64 cm).

3. **Is it suitable for heavy loads?**

No, it is designed to support low loads, without reinforcements on the top and front legs.

4. **Is the top washable?**

Yes, the heat-bonded fiberglass is easy to clean and resistant to moisture.

5. **Is it suitable for outdoor use?**

Yes, but it should be used with light loads and on stable surfaces.

Mini buying guide:

If you operate in the nursery, fruit and vegetable sector, or manage light displays in markets and fairs, the H757_31 bench is an effective and practical solution.
