Display for tobacco and betting shops h339_72

Transparent plexiglass scratch card display for counter or ceiling. 21 containers, retailer-side door. Dimensions: W 85 x D 17 x H 45 cm.

The **h339_72 display for tobacco and betting shops** is a professional support in **transparent plexiglass** designed for the optimal organization of instant lottery tickets. Thanks to its **21-container** structure, this display solves the problem of space on the sales point, offering a functional and easy-to-place solution in bars and tobacco shops. The system is equipped with a **front door positioned on the retailer side**, characterized by an easy opening and closing mechanism specifically designed for the protection of scratch cards. Made with a thickness of 4 mm, it guarantees robustness and maximum visibility of the tickets, promoting the tidy and safe display of goods in both counter and ceiling configurations.
