

Display stand for fairs and markets h757_12

Display stand for fruit and vegetables, with a lightweight 30x18 mm profile structure. Top dimensions: 120 x 150 cm. Load capacity: 40 kg/m². Recyclable.

The **h757_12 market and exhibition stand** is designed for the **display of fruit, vegetables** and other lightweight products, combining practicality and stability with a **simple and functional design**. The structure is made of **30x18 mm profile** and **40 mm ovals**, ensuring lightness without compromising stability. This stand is ideal for outdoor markets, fairs and temporary stands, where an efficient and easily manageable display is essential.

The large **120 x 150 cm loading top** allows for optimal product organization, offering a **load capacity of up to 40 kg/m²**. The special profile edge helps keep products in position during display. The structure is **without reinforcements** on the top and on the front legs, making it particularly suitable for displays with lighter loads. Additionally, the stand is **recyclable**, a sustainable choice for the environment.

The **differentiated heights** of the front legs (**64 cm**) and rear legs (**86.5 cm**) create a slight **inclination of the top**, facilitating optimal visibility of the displayed products. Perfect for those looking for a functional and practical solution for markets and fairs.

Choose the **h757_12 market stand** for your displays: a lightweight, stable and practical solution to enhance your products!

- **Sustainability:** Made with recyclable materials for environmental awareness.

FAQ:

1. **What are the dimensions of the loading top?**
The top measures 120 x 150 cm, perfect for displaying a variety of products.
2. **Is it suitable for outdoor use?**
Yes, the stand is suitable for outdoor markets and fairs, as long as it is placed in covered areas for greater durability.
3. **What ensures the stability of the stand?**
Stability is ensured by the 30x18 mm profile structure and well-sized legs.

4. What is the maximum weight supported?

The stand can support up to 40 kg/m², ideal for light products such as fruit and vegetables.

5. Is the stand easy to clean?

Yes, the smooth surface and materials used allow for quick and easy cleaning with a damp cloth.

Mini buying guide:

When choosing a **h757_12 market and exhibition stand**, it is important to evaluate the display needs and the type of products to be displayed. Thanks to its lightweight **30x18 mm profile** structure and 40 mm ovals, this stand is perfect for displaying fruit, vegetables and flowers with moderate loads.

The **inclined design** favors optimal visibility, making the products more attractive to customers. The structure without additional reinforcements makes it easy to handle and simple to use, particularly suitable for temporary displays in markets and fairs. Furthermore, the construction in recyclable steel contributes to a sustainable and ecological approach.

With the **h757_12 stand**, you can set up a functional, stable and easy-to-manage display space, perfect for sellers who need practical and durable solutions for their business.
