

Display stand for fruit 120x150 cm h757_40

Inclined stand with fiberglass and independent front legs. Dimensions: 120 x 150 x H front leg 64 cm and H rear leg 86.5 cm.

The **fruit and vegetable display stand with fiberglass H757_40** is a professional solution designed for those who need a solid, hygienic and visually effective stand for the display of **fruit, vegetables and flowers**.

The inclined structure, combined with the **thermally bonded fiberglass** top, allows for an **orderly and clearly visible presentation** of the goods, optimizing the display surface.

The top measures **120 x 150 cm** and is covered with **blue thermally bonded fiberglass**, a material ideal for the food sector thanks to its **resistance, hygiene and ease of cleaning**. The **structure is made of 35x20 mm reinforced aluminum**, combining **lightness and robustness**, perfect for daily use in markets and fairs. The model shown in the photos does not include the fiberglass, but the **fiberglass** is nonetheless **included in the supply** of this **model**.

The height of the stand is achieved through two legs of different heights, which allow the inclination of the top: **rear leg height** 86.5 cm and **front leg height** 64 cm.

The model is equipped with **2 independent front legs**, which increase its **adaptability to the ground** and improve stability on irregular surfaces. This configuration makes it particularly suitable for outdoor and dynamic environments.

Buy now the **H757_40 display stand**: perfect for a hygienic, visible and stable display of fruit, vegetables and flowers. Contact us for a personalized quote.

FAQ:

1. **Is the stand suitable for outdoor use?**
Yes, thanks to the aluminum structure and the independent feet it is ideal for outdoor environments.
2. **What kind of top does it have?**
The top is 120 x 150 cm and is covered in thermally bonded fiberglass, which is hygienic and resistant.

3. **Is the stand inclined?**

Yes, the inclination is obtained through the difference between the rear leg (86.5 cm) and the front leg (64 cm).

4. **Are the front legs adjustable?**

No, but they are independent, useful for ensuring stability on imperfect surfaces.

5. **Is it easy to clean?**

Yes, thanks to the blue fiberglass coating, the top is easily washable and sanitizable.
