

Display stand for fruit and vegetables h757_07

Display stand for fruit and vegetables, with a reinforced loading surface and a folding structure to reduce bulk. Individual shelf dimensions: 40 x 180 cm.

The **fruit and vegetable stand h757_07** is the ideal solution for markets, shops, and environments that require a large display capacity while optimizing the available space. Its structure is designed to ensure solidity and practicality: the **reinforced loading surface** offers strength and stability, with a load capacity of **65 kg per square meter**, making it suitable for heavy loads of fruit, vegetables, and other products.

Made with a **35 x 20 mm profile** and **50 mm** oval tubes, this stand is robust and durable. The **special hinges** allow the stand to be **folded accordion-style**, overlapping the shelves and minimizing bulk when not in use. This functionality makes it extremely **versatile and easy to transport and store**.

The **die-cast aluminum rounded safety corners** ensure safety for operators and customers, avoiding dangerous edges. The dimensions of the **individual shelves** are **40 x 180 cm**, with a **rear foot height** of **90 cm** and a **front foot height** of **50 cm**, ensuring a convenient inclined display of products.

Upon request, it is possible to order the stand cover choosing between translucent white/blue fiberglass, thickened white fiberglass, opaque light blue fiberglass, or aluminum sheet.

Optimize your display space with the **fruit and vegetable stand h757_07**. **Compact, resistant, and safe**: an ideal solution for markets and shops. **Request a quote now** and purchase your stand!

- **Load capacity:** 65 kg/m²
- **Assembly:** with bolts
- **Recyclable**

User benefits:

- **Space optimization:** Accordion-style folding to reduce bulk.
- **High load capacity:** Capacity up to 65 kg/m² for heavy displays.
- **Guaranteed safety:** Aluminum rounded safety corners.
- **Ease of transport and assembly:** Simple assembly via bolts.
- **Customization:** Subject to quote, covers are available in different finishes to suit every need.

FAQ:

1. **How do you fold the stand?**
The stand folds accordion-style thanks to special hinges, overlapping the shelves to save space.
2. **What is the maximum load capacity of the stand?**
The capacity is 65 kg per square meter, ideal for heavy loads of fruit and vegetables.

3. **Are the corners safe for public use?**

Yes, the corners are rounded and made of die-cast aluminum to ensure maximum safety.

4. **Can the stand be used outdoors?**

Yes, the stand is designed to withstand outdoor conditions, thanks to the robust steel structure and the resistant materials used in its construction. However, it is advisable to store it indoors when not in use to prolong its lifespan.

5. **How is the stand assembled?**

The stand is assembled using bolts, making assembly and disassembly quick and practical.

Buying mini-guide:

The **fruit and vegetable stand h757_07** is a perfect solution for markets, supermarkets, and shops that require an efficient and safe display of products. Its robust structure in **steel with a 35 x 20 mm profile** and **50 mm** oval tubes ensures durability and resistance over time.

Thanks to the **accordion closure** system, it is possible to reduce bulk and easily transport the stand, making it ideal for dynamic and temporary environments such as outdoor markets. The **safety corners** ensure the protection of operators and customers, while the possibility of customizing the covers allows the stand to be adapted to any display context.

Investing in this stand means choosing a versatile, resistant, and functional solution to improve your commercial activity.

Foldable fruit and vegetable stand, folding display, accordion-closure stand, galvanized steel display stand, market structure, stand with safety corners, greengrocer shop display, stand with customizable cover, furniture for markets and supermarkets, fresh product display stand, resistant and compact stand, stand with high load capacity, robust display stand, foldable stand for fruit and vegetables.
