

## Dog drinking fountain with bag dispenser h19181

Dog drinking fountain in steel and concrete with integrated basin, two taps (automatic and manual), bag dispenser. Dimensions 560x750x1350 mm.

Dog drinking fountain designed specifically to guarantee **continuous and safe hydration** in public parks and gardens. The structure combines a **steel delivery column** with a **concrete conglomerate containment basin**, creating a functional island dedicated to the well-being of dogs and the convenience of owners.

The fountain is equipped with **two taps positioned in line**: the lower tap delivers water directly into the basin via a **battery-powered automatic timed system**, which regulates the flow interval to keep the bowl constantly full and with continuous exchange; the upper tap works **manually with a timed button** and can be operated by the dog owner as needed. Integrated into the structure is a **tear-off bag dispenser** for the hygienic collection of dog waste, positioned in the upper part of the fountain.

## Technical characteristics

- Material: steel and concrete conglomerate
- Color: micaceous grey
- Dimensions: W. 560 x D. 750 x h. 1350 mm
- Basin diameter: 180 mm
- Weight: approx. 100 kg
- Dispenser capacity: approx. 250 bags (bags not included)
- Automatic delivery power supply: battery

## Optionals

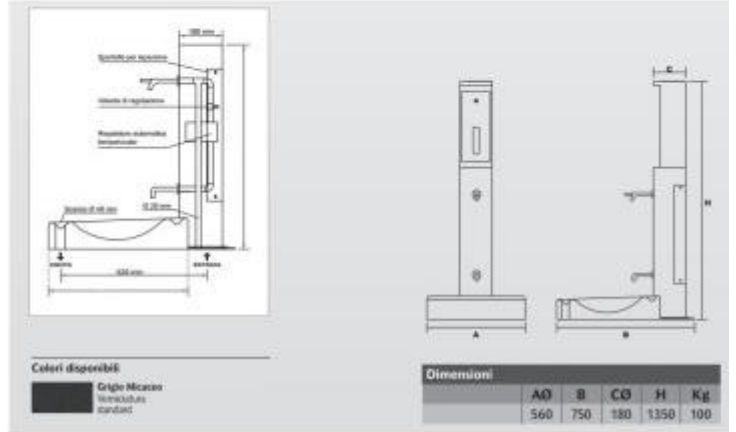

- Pack of 1500 tear-off polyethylene bags (bundles of 50 pieces)
- Version without bag dispenser (on request and quotation)
