

Dog fountain suitable for parks h287_282

Drinking fountain for dogs in galvanized steel and concrete, with tap. Dimensions: W.60 x D. 50 x H.30 cm.

Dog fountain for parks perfect for **our four-legged friends** after a **long walk in the park** or for **refreshing relief after a day under the sun in the city**. The **dog drinking trough** is composed of a stem in **galvanized and oven-painted round steel tube with a corten effect**. Equipped with a convenient **chrome-plated push-button tap in steel profile Ø 150 mm** for always fresh and ready water distribution. The collection basin is made of **vibrated reinforced concrete and treated against degradation with non-toxic products**. The product has a hot-dip galvanized finish and oven painting using non-toxic polyester powders.
