

Dog waste bag dispenser h326_61

ABS dispenser for dog waste bags, 350-piece capacity, polyethylene post H.105 cm, triangle lock, ground fixing.

The **dog waste bag dispenser** represents a structured solution to encourage the maintenance of hygiene in public spaces. Installed in parks, municipal gardens, and dedicated dog walking areas, it facilitates citizens' access to bags for waste collection, reducing abandonment and promoting responsible behavior.

The device consists of an **ABS container with a capacity of 350 bags**, accessible via an opening in the lower part, and a **freestanding polyethylene post** that supports the dispenser. The rear structure of the container is fixed to a **hot-dip galvanized sheet metal box** (300 × 100 mm, height 50 mm), ensuring corrosion resistance and durability in outdoor environments.

The **integrity of the container is ensured by a lock with a triangle key**, which allows for controlled access to the bags. Two stainless steel pins at the back support the bag block, while the **polyethylene post (diameter 8.5 cm, height 105 cm)** is equipped with a fixing flange (diameter 13 cm) with four holes for ground anchoring.

Technical features

- Container material: ABS
- Post and flange material: polyethylene
- Dispenser dimensions: L. 228 × D. 95 × H. 445 mm
- Capacity: 350 bags
- 2 stainless steel pins at the back to support the bag block
- Lock with triangle key
- Polyethylene post: diameter 8.5 cm, height 105 cm
- Polyethylene flange: diameter 13 cm with 4 holes for ground fixing
- Rear structure: hot-dip galvanized sheet metal box, 300 × 100 mm, H. 50 mm

Options

- Custom coloring (upon request and quote)
- Alternative fixing systems (upon request and quote)

Image purely indicative

- **Tipologia** Dispenser sacchetti
- **Fixing** a terra
- **Width in millimeters** 228.000000
- **Depth in millimeters** 95.000000
- **Height in millimeters** 495.000000
