

Dog waste bag dispenser h8632

Wall-mounted steel dispenser for dog waste bags. Front opening with key lock, internal hook. 255x125x400 mm, 3.3 kg.

Dog waste bag dispenser designed for placement in public spaces, dog areas, and HoReCa contexts with waste management. Made of **painted steel**, it ensures resistance and durability in conditions of intense use and external exposure.

The device is designed for **wall mounting** and allows bag loading via a **front opening with key lock**, ensuring access control and prevention of tampering. Bags are held in place by an **internal hook** that facilitates extraction.
