

## Dog waste bin 50 lt h32605

Dog waste container in HDPE, capacity 50 liters, pole or wall mounting, thermoformed ABS lid, height 68 cm.

Specific container for the collection and storage of dog waste, designed for public and semi-public contexts such as parks, dedicated areas, common spaces and walking zones. Made of **rotational HDPE**, it offers structural resistance to impacts, climatic aging and colorimetric degradation. The **thermoformed ABS lid** allows internal ventilation and is painted with high-durability two-component paints.

The fixing system allows anchoring to any existing vertical pole or directly to the wall (fixing material not supplied).

## Technical characteristics

- Body material: rotational HDPE
- Lid: thermoformed ABS with two-component painting
- Capacity: 50 liters
- Loading opening: 30.5 x 45.5 cm
- Height: 68 cm
- Base footprint: 47 x 42 cm
- Weight: 6.5 kg
- Stability: non-tilting
- Fixing: to pole or wall (mounting accessories not included)
