

Dog waste bin for parks h35029

High-density fiberglass dog waste bin with lid and Ø60 mm galvanized steel post. Dimensions 34x28x54 cm, total height 123 cm.

Dog waste bin designed for outdoor environments such as **public parks, condominium courtyards, private gardens, and tree-lined avenues**. The integral **high-density fiberglass** structure combines durability and resistance to atmospheric agents, while the **integrated lid** protects the contents from rain and pollutants. The fixing system via a **Ø 60 mm galvanized round tubular steel post** ensures stability and longevity of the installation.

Technical features
