Dog waste bin for public parks h109244

Elliptical dog waste bin with bag dispenser, locking door, bolt fixing, galvanized and painted steel. H.925x580x352 mm.

The **dog waste bin** is an essential piece of equipment for maintaining urban decorum. It allows for the hygienic collection of canine waste and represents a complete solution for waste management in public areas frequented by dogs and owners. Its presence in streets, squares, avenues, and public parks contributes to keeping common spaces clean and tidy.

The product combines containment and bag distribution functionalities in a single compact structure. The **elliptical shape** optimizes visual space in public areas, while the integrated **bag dispenser** facilitates use by citizens.

The structure is made of **galvanized and painted steel** with thermosetting polyester powders, ensuring resistance to corrosion and durability in outdoor environments. The **upper lid** integrates an **ashtray**, expanding the versatility of the equipment in multifunctional urban contexts.

Access is via a **front door equipped with a lock with a universal key**, which allows authorized personnel to access the bin for emptying and maintenance. At the top of the door is one of the two holes for introducing bags; at the bottom is the dispenser for collection.

Ground fixing is achieved by two flanges welded to the base of the sides, equipped with holes for anchoring with bolts, ensuring stability and safety.

Technical characteristics

- Type: dog waste bin
- Shape: elliptical
- Integrated disposal bin
- Bag dispenser (bags not included in standard supply)
- Access: front door with universal key lock
- Integrated ashtray in the lid
- Internal flat frame with bottom
- Upper lid in steel sheet
- Fixing: via ground bolts
- Material: galvanized steel, painted with thermosetting polyester powders
- Colors: available in various variants
- Dimensions: h.925 x 580 x 352 mm

Optionals

- Pack of 3000 hygienic bags
