Dog waste bin h326_49

50-liter HDPE container for dog waste collection. Truncated cone base, ABS lid, galvanized pole, removable bag emptying.

Specialized container for **urban furniture** designed for the hygienic collection of dog waste in public spaces and dedicated areas. Made of **HDPE through rotational molding**, it guarantees a robust and durable structure over time, ideal for environments exposed to variable climatic conditions and intense use.

The **truncated cone geometry with a rectangular base** facilitates both bag insertion and emptying, while the **thermoformed ABS lid** allows ventilation and reduces the proliferation of odors. The opening equipped with a handle allows for intuitive use even with one hand.

Technical features

- **Body material:** Rotationally molded HDPE
- **Lid material:** Thermoformed ABS with painted finish
- **Capacity:** 50 liters
- **Top opening dimensions:** 30 x 45 cm
- **Bottom base dimensions:** 20 x 36 cm
- **Lid dimensions:** 47 x 32 cm
- **Overall width:** 47 cm
- **Overall depth:** 40 cm
- **Height with handle:** 72 cm
- **Support pole:** galvanized, length approximately 75 cm
- **Weight:** approximately 8 kg
- **Emptying:** internal removable bag
- **Opening:** integrated handle
