

Dog waste bin h924_26

Dog waste bin made from 100% recycled plastic, height 1474 mm, width 352 mm. Weather-resistant, designed for sustainable urban furniture with an ergonomic slot and easy maintenance.

The dog waste bin is a functional and sustainable solution for managing canine waste in public spaces. Made of **100% recycled plastic**, it combines durability and environmental responsibility, making it ideal for parks, public gardens, sidewalks, and residential areas where hygienic control of spaces is a priority. The compact and weather-resistant structure facilitates daily cleaning and reduces maintenance time for the staff in charge.
