

Dog waste bin in painted steel h516_03

Dog waste bin in painted steel with integrated bag dispenser. Capacity 32 l, columnar shape, h. 985 mm. For public spaces.

Specialized bin for the collection of dog waste, designed for placement in **public and semi-public outdoor spaces** such as gardens, parks, and squares. It solves the practical problem of managing animal waste in urban environments through an integrated and functional solution.

The **powder-coated steel** structure guarantees resistance to atmospheric agents and durability over time. The linear design gives a sober and columnar aesthetic that integrates discreetly into the urban context.

A distinctive feature is the **integrated space for positioning plastic bags**, which facilitates use by citizens and improves the user experience.
