## Dog waste bin with bag dispenser h506\_02

Modern dog station in painted galvanized steel with integrated bag dispenser, 40-liter capacity, 1900 mm height, ideal for public spaces.

The dog station is a solution designed for the hygienic management of dog waste in public and residential areas. Intended for parks, municipal gardens, and courtyards, it facilitates waste sorting and improves urban cleanliness, encouraging dog owners to use a dedicated and equipped area.

The structure combines **robustness and modern design**, ensuring visibility and accessibility in outdoor environments. The **integrated bag dispenser** reduces search times and encourages conscious use of the station.

## Technical features

- Material: **galvanized and powder-coated steel**
- Bin capacity: **40 liters**
- Bag dispenser capacity: **1200 bags**
- Dimensions: **W. 480 x D. 230 x h. 1900 mm**
