

## Dog waste bin with bags h42433

Plastic dog waste bin with integrated steel bag dispenser. 50 L capacity, wall-mounted installation, 430x420x750 mm.

Dog waste bins represent an essential solution for keeping urban public spaces clean and hygienic. This product is designed for vertical wall installation and integrates a **built-in bag dispenser**, which significantly simplifies collection and disposal operations. The combination of practicality and holding capacity makes it ideal for areas with high dog traffic, such as parks, public gardens, and walkways.
