Dog waste container 40 Liters h86_133

40L dog waste collection container in Corten metal, with 200-bag dispenser, ground fixing, tilting opening, ideal for public spaces.

Container specifically designed for the **hygienic collection of dog waste** in urban and public environments. Made of **corrosion-resistant metal with a Corten effect**, it ensures durability and aesthetic integration into city spaces. The product solves the problem of animal waste management while maintaining order and hygiene in high-traffic areas, with particular attention to collective well-being.

The structure combines **practicality of use and construction simplicity**: the tank opens by tilting forward, facilitating emptying without complex handling. The **reduced opening** prevents the accidental introduction of bulky objects, protecting the internal system. The **integrated 200-bag dispenser** with gradual distribution ensures continuous availability of materials for the end user.

Technical features

- Material: corrosion-resistant metal (Corten effect)
- Container capacity: 40 Liters
- Dimensions: W. 611 x D. 272 x H. 930 mm
- Weight: 18.75 kg
- Fixing: ground anchoring via 4 screws
- Bag dispenser: capacity 200 pieces with gradual distribution system
- Tilting opening via forward tank tipping
- Dispenser with keyless closure
- Reduced opening anti-bulky objects
