

## Dog waste container and bag dispenser h42419

Plastic dog waste collection dispenser and container with bags, complete with anchoring pole. For parks, gardens, and residential areas. Available in grey and green.

Complete system for the **hygienic management of dog waste collection** in public and residential spaces. This dispenser-container solves the need for order and hygiene in parks, avenues, and municipal gardens, providing visitors with a practical and discreet solution for the correct disposal of animal waste.

The structure is designed to ensure easy access to disposable bags and secure containment of waste, with permanent ground fixing via a dedicated pole.
