

Dog waste container h737_01

Steel dog station for dog areas and parks. Key-locked bag dispenser and container, 85 lt, h.100 cm. Vandal-proof.

Dog station designed for public spaces and dedicated dog areas in parks and along streets. The robust steel structure is designed for ground fixing using bolting, ensuring stability even in high-traffic environments. The product responds to a concrete need: providing pet owners with an orderly and hygienic solution for waste management, reducing the abandonment of bags and visual degradation in public areas.
