

Dog waste dispenser h223_06

Hot-dip galvanized steel dog waste dispenser, dimensions W 43.5 x D 10.5 x H 134 cm, capacity 1,000 bags, triangular lock, installation on solid surfaces.

The **h223_06 dog waste dispenser** is a fundamental element for maintaining hygiene and order in parks, public gardens, and urban areas. Designed specifically to offer a practical and accessible solution for dog owners, the dispenser combines functionality and durability in a compact format.

Made of **hot-dip galvanized steel** according to the **DIN EN ISO 1461** standard and powder-coated, the product ensures effective protection against corrosion and atmospheric agents, guaranteeing a long operational life and a consistently well-maintained appearance over time. The **compact dimensions** of approximately W 43.5 x D 10.5 x H 134 cm make it suitable for various contexts without compromising available space.

The integrated dispenser has a **filling capacity of 1,000 bags**, offering a practical solution that reduces the frequency of refills. The **swivel front flap**, protected by a **triangular lock**, ensures secure and controlled access, preventing unauthorized tampering. The forward opening allows for convenient and quick bag refilling, facilitating maintenance operations.

The standard supply version is designed to be **bolted onto solid surfaces**, ensuring optimal stability in various urban areas. The supply includes a **metal triangular key** for opening and closing operations and a **signage sticker** that facilitates the identification of the dispenser, making its use simple and intuitive.
