

Dolphin-shaped spring rider h521_18

Dolphin-shaped spring rider in HDPE polyethylene and steel. Dimensions 95x47x80 cm, UNI EN1176 certified for public parks and playrooms.

The dolphin-shaped spring rider is a professional recreational solution designed for outdoor play areas, public parks, and playrooms. The structure is designed to stimulate balance and coordination in children within a context of maximum protection, solving the durability issues typical of installations subject to intensive use and atmospheric agents. The use of non-toxic and resistant materials guarantees a long-term investment for managers of recreational spaces and accommodation facilities.

Technical features

- Dimensions: L 95 x W 47 x H 80 cm
- Safety footprint area: 6.7 sqm
- Panel material: High-density HDPE polyethylene, UV resistant
- Spring material: Tempered harmonic steel
- Fixing system: Hot-dip galvanized iron ground anchoring plate
- Safety: Design with rounded edges and anti-tamper plastic screw caps
- Recommended age group: From 1 to 12 years
- Regulatory compliance: Certification according to European standard UNI EN1176
