

Wall-mounted liquid soap dispenser h218_134

Automatic liquid soap dispenser. Suitable for disinfectant.

Automatic liquid soap dispenser, with wall-mounted infrared sensor, with level indicator and safety lock. Suitable for alcohol-based disinfectants. Battery powered. Made of satin-finished AISI 304 stainless steel.

- • Electronic infrared sensor that stops the dispenser when hands are removed from the detection range.
- • Capacity: 1000 ml. Refillable.
- • Operates with 6 x 1.5 V batteries.
- • Dimensions: height 275 x width 105 x depth 95 (mm).

Operation

place hands under the dispenser. This is automatically activated, remaining in operation while hands are within the sensor field. The dispenser turns off when hands are removed.

Maintenance

stainless steel requires maintenance because dust can eventually damage the chromium (Cr) content in stainless steel. monthly cleaning is recommended
