

Double bicycle rack with compartments h915_10

Bicycle rack for housing no. 2 bikes. Key lock. Dimensions: W. 400 x D. 460 x h. 906 mm.

Bicycle rack designed for installation on seafronts, public spaces, parks, outdoor areas of shopping centers and shops, **capable of accommodating up to 2 bicycles**. The design of the panels, with a groove at pedal height, ensures the stability of the bicycles once the pedal is inserted into the groove. The rack is equipped with **2 compartments**, one of which is intended for storing helmet and child seat, and features a **key lock**. The user must provide a padlock to lock the wheels and the frame. Made entirely of **steel** with two-layer coating: epoxy primer and polyester paint for outdoors, the bike rack is available in the color shown in the photo and is **designed to be anchored to the ground**.

Technical features:

- Dimensions: W. 400 x D. 460 x h. 906 mm
- Number of spaces: 2
