

Double desk for students h872_28

Two-seater student desk in 18 mm melamine particleboard. Ergonomic, with integrated drawers and compliant with the UNE-EN 1729-1 safety standard.

The **double student desk** with integrated drawers represents an advanced structural solution for setting up classrooms, libraries, and training centers. Designed to support prolonged educational activity, the module focuses on **postural ergonomics**, ensuring full compliance with the technical requirements of the **UNE-EN 1729-1** standard for school furniture.

The work surface is made of 18 mm **high-density particleboard**, finished with a melamine coating that provides high mechanical resistance to scratches, impacts, and thermal stress. The structure is completed by safety edging and leveling systems that ensure stability even on uneven surfaces.

Technical features

- **Worktop:** 18 mm particleboard with scratch-resistant melamine finish.
- **Edges:** Rounded PVC profile for the prevention of accidental injuries.
- **Storage:** 2 individual drawers and integrated pen tray in the structure.
- **Base:** Metal feet equipped with non-slip, noise-reducing, and scratch-resistant rubber pads.
- **Adjustment:** Leveling system at the base to compensate for uneven floors.
- **Compliance:** Product certified according to the European UNE-EN 1729-1 standard.
