

Double laundry trolley for hospitals h13_331

Professional double laundry trolley in AISI 202 stainless steel with 2 removable bags. Dimensions 94x42x90 cm, ideal for sanitary collection.

The **double laundry trolley H13_331** is a professional solution specifically designed for the **collection and transport of dirty laundry** in contexts with high hygiene requirements. The **AISI 202 stainless steel** structure ensures high resistance to corrosion and the frequent sanitization cycles required in clinical and hospital settings.

The **removable double bag** system allows for optimized workflow management, enabling immediate separation of fabrics (for example, between infected and ordinary laundry) directly at the collection point. Handling is ensured by **4 swivelling wheels** that provide maneuverability even at full load in corridors and narrow spaces.

Technical characteristics

- **Structure:** Electropolished AISI 202 stainless steel
- **Configuration:** 2 high-capacity removable bags included
- **Handling:** 4 non-marking swivelling wheels
- **Overall dimensions:** 94 x 42 x 90 cm (W x D x H)
- **Intended use:** Internal logistics and dirty laundry management
