

Double umbrella stand with planters for indoor h770_23

Modular configuration with planters and umbrella stands in satin stainless steel. Accident-prevention design with removable drip trays for offices and hotels.

The **h770_23 configuration** represents an integrated solution for the technical furnishing of professional and public environments, combining order management with the inclusion of natural decorative elements. Made entirely of **0.8 mm thick satin stainless steel**, the structure ensures high resistance to corrosion and excellent durability in high-traffic contexts such as receptions, executive offices, and hospitality facilities.

The system consists of two distinct umbrella stand modules, designed to optimize collection: the first is equipped with a **specific perforated rectangular compartment** for folding umbrellas (W 120 mm, D 240 mm, H 100 mm), while the second is dedicated to standard models. Both modules include upper rings with an **accidental extraction safety lock** and drip trays made of soft elastomer. The latter, in addition to protecting surfaces from moisture, dampen noise during use, ensuring quiet operation.

The integrated planters complete the system, offering removable and perfectly sealed internal containers to prevent water infiltration. Operational safety is guaranteed by **accident-prevention rounded edges** with a 20 mm radius and concealed connection joints, which give the product a linear and professional aesthetic appearance.

Technical specifications

- **Material:** Satin stainless steel (0.8 mm thickness)
- **Umbrella stand module dimensions:** W 340 x D 350 x H 500 mm
- **Planter module dimensions:** W 340 x D 350 x H 350 mm
- **Upper ring dimensions:** W 240 x D 240 mm
- **Folding umbrella compartment:** Present on one module (W 120 x D 240 x H 100 mm)
- **Water collection system:** Removable and silenced soft elastomer trays
- **Safety:** Accident-prevention rounded edges with 20 mm radius
- **Planter components:** Removable sealed internal stainless steel trays
- **Assembly:** Hidden connection joints
