

## Drawer hotel safe with touch keypad h12939

Design drawer safe with black glass door, touch keypad and integrated LED display. Dimensions: W 45 x D 40 x H 20 cm. CE certified.

The **design drawer safe** represents aesthetic and functional excellence for high-profile hotel room furnishings. Characterized by a refined **black glass door with a beveled profile**, this unit integrates perfectly into bedroom furniture, transforming a security element into a modern furnishing accessory. The horizontal pull-out (drawer) configuration solves the operational problem of difficult access to valuables, allowing the guest a complete and immediate view of the contents from above.

The user interface is managed via an innovative **touch keypad** with a backlit LED display integrated directly into the glass surface, ensuring absolute formal cleanliness and superior ease of cleaning compared to mechanical keypads. Security is guaranteed by a motorized locking system with spring opening, while emergency management is ensured by a double protocol: the use of a **6-digit master code** or intervention via a **mechanical security key**, offering management total flexibility in case of need.

## Technical features

- **External dimensions:** W 450 x D 400 x H 200 mm
- **Internal dimensions:** W 380 x D 315 x H 160 mm
- **Structure:** Drawer system with easy extraction
