

Drinking water storage tanks in sheet metal h12742

Vertical cylindrical galvanized sheet metal tank. Dimensions: W. 500 x D. 500 x h. 1580 mm. Ø manhole: 240 mm.

The **water storage tanks** are essential equipment for collecting drinking water which, once stored, can satisfy sudden and simultaneous needs. This model is made of **galvanized sheet metal** and features a **vertical cylindrical structure**, equipped with a **manhole Ø 240 mm** for inspection, **connections** and **vent**. The manufacturing material undergoes a hot-dip galvanizing process and complies with the limits imposed on materials intended to come into contact with water for human use, as per Ministerial Decree 174 of 06 April 2004. Ideal for the industrial sector.

Technical features:

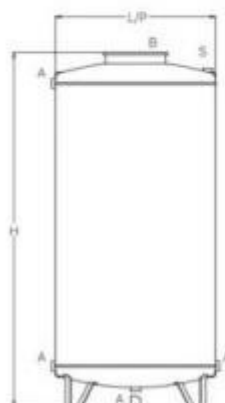

- Dimensions: W. 500 x D. 500 x h. 1580 mm
- Nominal capacity: 300 l

- Weight: 25 kg
- Cylindrical structure
- Type: vertical
- Manufacturing material: galvanized sheet metal
- For drinking water storage
- With manhole Ø 240 mm
- 1" connections
- 1" vent
