Drum containment pallet with tool holder back panel h874_29

Sump pallet for managing industrial liquids, with a galvanized grid and tool holder back panel, suitable for containing up to 2 x 200-liter drums. Dimensions: 1280 x 800 x h 2015 mm.

The **h874_29 liquid storage sump pallet** is designed to provide a complete and safe solution for industrial liquid management. Intended to hold up to **2 x 200-liter drums**, this pallet guarantees **resistance, practicality, and organization** thanks to the presence of the perforated **galvanized steel tool holder back panel**, which allows tools and accessories to be arranged in an orderly and functional manner.

The main structure is made of **3 mm thick steel sheet**, offering high mechanical resistance and long-term reliability. The pallet includes a **galvanized grid** with a **load capacity of up to 1000 kg/m²**, designed to support heavy loads without deforming.

Mobility is guaranteed by **hot-dip galvanized push handles** and **4 robust polyamide wheels**, of which **2 are fixed and 2 are swivel (one swivel with brake)**, with a diameter of 180 mm, ensuring easy movement even on industrial surfaces.

Thanks to a **collection volume of 215 liters**, this pallet is ideal for preventing accidental spills, while ensuring safe and compliant management of the substances contained. The finish is painted in **RAL 7005**, with the possibility of choosing between different RAL colors or galvanization upon request and subject to a quote.

Leave nothing to chance in the management of industrial liquids. With the **h874_29 sump pallet**, choose resistance, mobility, and a practical design. **Order now** and optimize your workspace!

Technical specifications:

- **Dimensions:** 1280 x 800 x 2015 mm

- **Collection volume:** 215 L
- **Capacity:** 2 x 200 L drums
- **Total weight:** 110 kg
- **Pallet material:** 3 mm thick steel sheet
- **Galvanized grid:** load capacity up to 1000 kg/m²
- **Tool holder back panel:** square perforations (10 mm), 38 mm grid pattern
- **Wheels:** 2 fixed and 2 swivel in polyamide, Ø 180 mm (1 swivel with brake)
- **Handles:** hot-dip galvanized for easy pushing
- **Color:** RAL 7005

User benefits:

- **Optimal organization:** perforated panel for orderly tool management.
- **Guaranteed safety:** pallet with high collection capacity to prevent liquid spills.
- **Versatile mobility:** durable wheels and ergonomic handles for easy movement.
- **Robust construction:** high-quality materials for long-lasting durability.
- **Adaptability:** suitable for various industrial environments thanks to its resistant and customizable structure.

FAQ:

- 1. How many drums can this pallet hold?**
The sump pallet is designed to hold up to 2 x 200-liter drums each.
- 2. What are the characteristics of the wheels?**
The wheels are made of polyamide, with a diameter of 180 mm, including 2 fixed and 2 swivel wheels; one swivel wheel is equipped with a brake to ensure stability during use.
- 3. How is the tool holder back panel used?**
The panel is perforated with 10 mm square holes, allowing for flexible positioning of tools and accessories for better work organization.
- 4. What is the collection capacity of the pallet?**
The pallet has a collection volume of 215 liters, ideal for containing any liquid spills.
- 5. Is it suitable for outdoor use?**
Yes, thanks to the robustness of the materials, the pallet can also be used in contexts exposed to weathering.

Buying guide:

Choosing the **h874_29 liquid storage sump pallet** means opting for a reliable and versatile product, ideal for industrial environments. This model not only allows for the safe storage of **200-liter drums**, but also includes a perforated tool holder panel that improves the organization of work tools.

Thanks to the **steel structure** and the **galvanized grid**, the pallet ensures high mechanical resistance and durability even under heavy use. The **wheels** and **handles** facilitate movement, making it a practical solution for warehouses and workshops. Before purchasing, check that the available space is compatible with the dimensions of the pallet.

Investing in the **h874_29** means equipping yourself with a safe, mobile, and functional solution to improve the management of industrial liquids and work tools.

Industrial liquid collection pallet, safe drum storage, spill containment, galvanized sump pallet with grid, industrial warehouse pallets, 200-liter drum containers, pallet with wheels and handles, hazardous liquid management, perforated tool panel, RAL 7005 collection pallet, mobile chemical liquid containers, workshop sump pallet, anti-corrosion structure for industrial environments, hazardous liquid pallets with reinforced grid.
