

Drum storage sump for industrial sector h874_37

Mobile sump for storage and liquid collection. Capacity: 1 x 200 lt drum. Dimensions: 870 x 800 x h 1110 mm. Collection capacity: 215 lt.

The **h874_37 wheeled drum storage sump** is the perfect solution for managing industrial liquids in total safety. Designed to hold **one 200-liter drum**, this sump combines **robustness, functionality and practicality** of use, making it ideal for intensive work environments.

The **structure** is made of **3 mm steel sheet**, ensuring high resistance and durability over time. The **galvanized grid**, with a **load capacity of 1000 kg/m²**, provides solid and safe support, facilitating storage and liquid collection operations. The **edge profiling** has been designed to improve stability and provide reliable support for the grid.

The sump is equipped with an intuitive handling system, thanks to **4 polyamide wheels: 2 swivel (one with brake) and 2 fixed**, with a diameter of 180 mm and a total height of 225 mm. This system allows the sump to be moved easily, even in small work areas, while ensuring stability when in a static position. The integrated **push handle** further facilitates movement.

The sump is finished with **painting in RAL 5012**, which gives a professional appearance and additional protection against external agents. Upon request and subject to a quote, different RAL colors or a galvanized model are available.

Simplify the management of industrial liquids with the **h874_37 sump**: a robust, practical and safe product for your working needs. **Order now** and optimize your workspace!

Technical characteristics:

- **Dimensions:** 870 x 800 x h 1110 mm
- **Collection volume:** 215 lt
- **Maximum capacity:** 1 x 200 lt drum (not included in the supply)
- **Structure material:** 3 mm steel sheet
- **Grid:** galvanized, capacity 1000 kg/m²

- **Edge profiling** as grid support
- **Wheels:** 2 swivel (1 with brake) and 2 fixed, diameter Ø 180 mm
- **Wheel height:** 225 mm
- **Handle:** for pushing and transport
- **Color:** RAL 5012
- **Weight:** 69 kg

User benefits:

- **Improved mobility:** Resistant wheels and handle for quick and safe movements.
- **Certified robustness:** Steel structure and galvanized grid for long life.
- **Guaranteed safety:** Edge profiling and brake on one swivel wheel for maximum stability.
- **Ease of use:** Intuitive design for practical and efficient use.
- **Suitable for every context:** Ideal for industrial environments and intensive processing.

FAQ:

1. **How many drums can this sump hold?**
It can hold a single 200-liter drum, making it perfect for targeted storage needs.
2. **Is it suitable for environments with difficult working conditions?**
Yes, thanks to its resistant steel structure and galvanized grid, it is designed to last even in intensive environments.
3. **Do the wheels support movement on irregular surfaces?**
The polyamide wheels guarantee excellent resistance, making the sump easy to maneuver on flat surfaces.
4. **What is the maximum weight the grid can support?**
The galvanized grid can support a maximum load of 1000 kg/m².
5. **How is stability ensured during use?**
The sump is equipped with a swivel wheel with a brake and profiled edges for greater safety and stability.

Mini-guide to purchase:

Buying a storage sump like the **h874_37** means choosing a reliable and high-quality product for the safe management of industrial liquids. Ideal for applications requiring mobility, this sump guarantees **safe and simple storage** thanks to the **steel structure** and the resistant **galvanized grid**.

Before purchasing, consider the available space and frequency of use to ensure the product is perfect for your needs. Thanks to the combination of **robustness, mobility and ease of use**, this sump is the ideal solution to ensure efficiency and safety in any industrial environment.

Choose the quality of the **h874_37 sump** for optimal liquid control!

Liquid storage sump, industrial drum container, 200 lt sump with wheels, mobile containment system, safe management of industrial liquids, industrial galvanized sump, equipment for 200 lt drums, solutions for chemical liquids, container with handle and wheels, robust containers for liquids, industrial oil collection sump, safe drum transport, accessories for industrial environments, steel sump with resistant grid.
