

Drum transport trolley h883_69

Galvanized steel trolley for 220L drums. 200kg capacity, 4 wheels and removable handles for controlled tilting from vertical to horizontal.

The **drum transport trolley h883_69** represents an advanced technical solution for the safe and rational handling of standard 220-liter drums in industrial settings, workshops, and logistics depots. Made entirely of **galvanized steel**, the device ensures high resistance to oxidation and mechanical wear, making it suitable even for heavy-duty operating environments or where humidity is present. The system is specifically designed to allow the transition of the drum from a vertical to a horizontal position, optimizing storage and retrieval operations.

Technical features

- **Type:** Professional drum handling trolley
- **Compatibility:** 220-liter drums (reference dimensions 595 x h 880 mm)
- **Structure:** Hot-dip galvanized steel for corrosion prevention
- **Wheel configuration:** 2 fixed wheels and 2 swivel wheels for assisted steering
- **Grip system:** 2 ergonomic removable handles that can be stored under the drum
- **Mechanism:** Facilitated tilting function from vertical to horizontal
- **Maximum capacity:** 200 kg
- **Operating weight:** 16 kg
