

Drum transport trolley h883_71

Manual drum tipper trolley for 220L steel drums. 365kg capacity, 360° rotation and ratchet system for single operator management.

The **h883_71 drum transport and tilting trolley** is a professional industrial equipment designed to optimize the management of 220-liter steel drums in production and logistics contexts. This solution addresses critical issues related to the handling of heavy loads, allowing **a single operator** to perform complete cycles of loading, transport, lifting, and emptying in total safety. Thanks to the **ratchet mechanism**, it is possible to adjust the inclination of the drum with extreme precision, facilitating the controlled pouring of liquids, solvents, or raw materials.

Technical features

- **Type:** Manual drum tipper and transporter trolley
- **Compatibility:** 220-liter steel drums
- **Maximum capacity:** 365 kg
- **Lifting height:** Adjustable from 127 mm (5") to 305 mm (12")
- **Drum rotation:** Continuous 360°
- **Lifting system:** Manual ratchet mechanism
- **Locking system:** Ratchet, with stop in any angular position
- **Maneuverability:** 3-wheel configuration (2 fixed front and 1 rear swivel)
- **Operability:** Designed for use by a single operator
- **Overall dimensions:** 940 x 885 x 1180 mm
