

## Dual-collection bin 45 lt + 45 lt for indoor use h424\_133

Dual-collection bin 45+45 lt with front door and internal bag-holding rings. Dimensions: W. 420 x D. 295 x h. 863 mm.

The **h424\_133 dual-collection bin** is a practical and compact solution for **waste sorting** in indoor environments. Made of **galvanized steel** with a **thermosetting polyester resin powder coating** finish, it is durable and easy to maintain. Thanks to the **split two-compartment** configuration, with a capacity of **45 liters per bin**, it allows for the management of two types of waste in a single container.

Internal access for emptying is facilitated by a **front door with magnetic closure**, while the **hinged upper parts** allow convenient access to the **internal bag-holding rings**. The **integrated base with height-adjustable feet** ensures stability on any surface.

This bin is designed to be **placed on the ground** and can be used individually or as part of modular recycling stations by joining several bins together. A versatile and elegant solution, ideal for offices, schools, common areas, and public spaces.

Waste identification stickers are not included, available upon request and prior to quote. Bags not included in the supply.

Simplify waste management with the **h424\_133 dual-collection bin!** **Request a quote now** to adapt it to your needs.

### Technical features:

- **Material:** galvanized steel with thermosetting polyester resin powder coating
- **External dimensions:** W. 420 x D. 295 x h. 863 mm
- **Total capacity:** 90 liters (45 lt + 45 lt)
- **Configuration:** split two-compartment
- **Collection system:** internal galvanized steel bag-holding rings
- **Internal access:** front door with magnetic closure
- **Upper openings:** to easily access the bag-holding rings
- **Base:** integrated with height-adjustable feet

- **Installation:** floor-standing
- **Use:** indoor environments
- **Bags not included in the supply**
- **Stickers not included in the supply**, can be purchased separately upon request

#### User benefits:

- **Easy management:** access to the bag-holding rings and simple emptying via front door.
- **Modularity:** can be used individually or as part of recycling stations.
- **Compactness:** space-saving design ideal for indoor environments.
- **Stability:** adjustable feet for a perfect grip on any surface.
- **Sturdiness:** high-quality materials designed to last over time.

#### FAQ:

1. **How many types of waste can I manage with this bin?**  
It is possible to sort two types of waste thanks to the split configuration with two 45-liter compartments each.
2. **How is the waste emptied?**  
Emptying is facilitated by a front door equipped with a magnetic closure, for quick and easy access.
3. **Is the bin easy to move?**  
Yes, thanks to its compact and stable design, it can be easily positioned and repositioned on different surfaces.
4. **Are bags included in the supply?**  
No, bags are not included and must be purchased separately.
5. **What are the advantages of the split design?**  
The split design saves space by managing two waste streams in a single bin.

#### Short buying guide:

The **h424\_133 dual-collection bin** is perfect for those looking for a functional and compact solution for **waste sorting**. Thanks to the **split two-compartment** configuration and the possibility of modular use, it adapts to spaces of all sizes, such as offices, schools, or common areas. Its **robust design** and **durable materials** guarantee longevity and ease of maintenance. For personalized recycling, it is possible to purchase stickers to identify waste (upon request).
