

Dual-function overbed table h708_40

Professional chrome-plated steel overbed table with split top (81x38.5 cm). Height adjustable, ideal for healthcare assistance and patients.

The **H708_40 dual-function overbed table** is an indispensable professional aid for the care of bedridden patients in **hospitals, clinics, care homes or home care settings**. The structure is designed to maximize patient comfort and the operational efficiency of healthcare personnel, solving critical issues related to mobility and ergonomics during hospitalization.

The support surface stands out for its **dual functionality**: a tilting section up to 60.5 x 38.5 cm, ideal for reading, writing or using tablets, and a fixed side section of 20.5 x 38.5 cm, dedicated to the stable support of glasses, medicines or small medical instruments. The **continuous height adjustment system (from 70 to 110 cm)**, operated via an Allen screw and knurled knob, ensures millimetric adaptation to different types of beds and patient postures.

Technical features
