

Ductile iron road gully h638_35

Flat rain gully with automatic closure and anti-theft locking. External dimensions: 900 x 900 mm. Height: 75 mm.

The road gully with square frame and cover is an essential urban furniture element for **correct rainwater collection**, while ensuring safety for motorists. The product is made of **ductile iron according to UNI EN 124 standard** and features both a square frame and grate. The latter features a locking system equipped with a pair of nuts and bolts appropriately inserted into the specific holes to **prevent theft and tampering**. The product also complies with **DPR 503/96**.

Technical features:

- Material: ductile iron
- Square frame and cover
- Anti-theft locking
- Hinge
- Automatic closure
- Siphonable
- Flat surface
- External dimensions: 900 X 900 mm
- Clear opening: 800 x 800 mm
- Height: 75 mm
- Drainage area: 27.43 dm²
- Weight: 79 kg

INFORMATION

- Length in millimetres 900.000000
- Depth in millimetres 900.000000
- Height in millimetres 75.000000
