

Ecological warm air hand dryer h3342

Hand dryer which allows drying in 12-15 sec with a flow of high velocity air. Available in white or brushed stainless

- is innovative and inexpensive, allows up to 80% savings compared to other drying systems, in particular paper and cotton.
- is quick and effective drying perfect in 12-15 seconds * through an air flow at high speed. (* As a function of environmental conditions and usage).
- is hygienic: control system intelligent infrared sensors "no-touch" automatic drive insertion of the hands, the water collection tank: no dripping on the floors, HEPA Filter: Removes up to 99.997% of bacteria (option)

its ergonomic design allows the insertion of the hands in a naturale. Un double jet of clean air at 300 km / h winds on both hands ilati allows perfect drying and removal of sensation diumidità, in 12-15 seconds. The vents allow air knife diasciugatura maximum efficiency through a nice massage. The water is channeled to the collection nellavaschetta basedell'apparecchio, avoiding ilgocciolamento to the ground and consentendoil maximum hygiene and safety.

Technical details:

- Structure of ABS high impact
- Compliance with all applicable regulations in the international
- Universal induction motor with an inverter with high-speed 32000 rpm
- Operation Intelligent Photoelectric
- Electrical protection IP31 - CLASS II

- Voltage 220 V-240 V
- Total power 1750 W
- Motor power: 850W
- Dimensions (HxWxD): 650x300x230mm
- Frequency 50/60 Hz
- Air speed 300 km / h
- Air flow 35 l / s
- Noise level 75 db
- Warranty 5 years

Standard versionThe hand dryer h3342 has no filters in the standard version, but 2 grids on the bottom of abs (they are an integral part of the tank), where there are points of aspiration. Serve to prevent aspiration of large heaps of dust or the like, have no antibacterial function. Can be cleaned at the time of emptying of the pan with a cloth.HEPA FilterThe HEPA filter option of the standard product, has a real filter function (antibacterial certificate class H13, the maximum). You can gently clean and up to a certain degree of dirt (do not touch / damage the paper, for example, you should use a compressed air gun in a gentle way). Should be replaced from 1 to 3/4 times a year depending on the frequency of use and the type of environment in which it is installed (as dust or dirt is normally present at the place of installation).

INFORMATION

- **activation** photocell
- **Material** plastica
- **warranty** 5 anni
- **Power** 1750 W
- **Potenza in watt** 1750.0000
- **Height** 65 cm
- **Profondità in millimetri** 230.0000
- **Larghezza in millimetri** 300.0000
- **Altezza in millimetri** 650.0000
- **Depth** 23 cm
- **Width** 30 cm
- **Tempo di asciugatura** 10-15 sec
