

## Electric 3-motor gynecological examination chair h610\_04

**Gynecological examination table** with 3 motors (back, legs, and Trendelenburg adjustment). Available in various colors

The **Gynecological chair** is specifically designed **for gynecology**, urology, and ultrasounds; this is a chair with an **elegant and comfortable** design at the same time. The minimum height makes it easily accessible for the patient, while the maximum height offers the ideal functionality for the specialist. The comfortable, seamless anatomical mattress is covered in fire-retardant fabric with a wide choice of colors.

### Technical features:

- 3 motors for movement of height, backrest, and Trendelenburg
- Foot pedal control
- Automatic reset function
- 90° rotation from both sides
- Easy-to-clean anatomical mattress
- Large stainless steel tray for organic waste
- With leg supports
- Paper roll holder
- Pair of stainless steel handles
- EU 230V cable

*\*Upon prior quotation, it is possible to request the chair in different colors by choosing the color code from the attached photo, and it is possible to have a pair of foot supports as an alternative*
