

Electric gynecological examination table h728_04

Professional gynecological table with 2 motors, steel frame, and 11M fire-retardant vinyl upholstery. Electric adjustment of height and positioning.

This **gynecological examination table** is a professional solution designed specifically for use in maternity wards, obstetric clinics, and specialist medical practices. The **2 electric motors** configuration allows for smooth and precise management of the patient's posture, allowing height adjustment from the ground and reaching **Trendelenburg and Reverse-Trendelenburg** positions via a practical remote control. The integration of gas piston systems for the backrest and leg rest optimizes operational ergonomics for medical staff and comfort for the patient.

Technical features

- **Dimensions:** L 174 x W 56 x h 54/85 cm
- **Load capacity:** 180 kg
- **Frame:** Steel frame with epoxy coating and white painting

- **Mobility:** Wheels with parking brake, diameter 100 mm
- **Compliance:** CE-marked device

Optionals

- **Set:** of swiveling gynecological leg supports

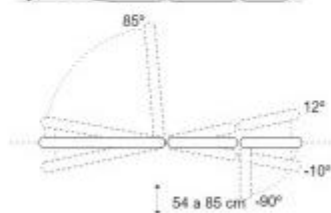

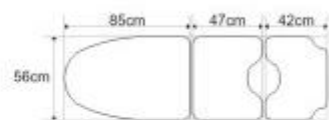

To preserve the integrity of the vinyl upholstery, it is essential to avoid the use of detergents containing alcohol, solvents, ketones, or xylene. Sanitization should be done with a soft cotton cloth moistened with water and neutral soap, avoiding abrasive brushes that could compromise the surface.
