

Electric gynecological table h728_04

Professional 2-motor gynecological table, steel structure and 1IM fire-retardant vinyl upholstery. Electric height and position adjustment.

This **gynecological examination couch** is a professional solution designed specifically for use in maternity wards, obstetric clinics, and specialist medical offices. The **2 electric motors** configuration allows for smooth and precise management of the patient's posture, allowing height adjustment from the ground and the achievement of **Trendelenburg and Anti-Trendelenburg** positions via a practical remote control. The integration of gas spring systems for the backrest and footrest optimizes operational ergonomics for medical staff and comfort for the patient.

Technical features

- **Dimensions:** L 174 x W 56 x h 54/85 cm
- **Load capacity:** 180 kg
- **Structure:** Steel frame with epoxy coating and white painting
- **Upholstery:** 100% fire-retardant vinyl certified Class 1IM
- **Padding:** High-density foam (30 kg/m³) with a thickness of 5 cm
- **Motorization:** 2 electric motors for height and inclination (Trendelenburg)
- **Mechanical adjustments:** Backrest and footrest via gas spring
- **Accessories included:** Foldable armrests (90°-180°), adjustable and swiveling leg supports, removable stainless steel tray, ergonomic cushion, roll holder, and gynecological hole
- **Mobility:** Wheels with parking brake, diameter 100 mm
- **Compliance:** CE marked device

To preserve the integrity of the vinyl upholstery, it is essential to avoid the use of detergents containing alcohol, solvents, ketones, or xylene. Sanitization must be carried out with a soft cotton cloth moistened with water and neutral soap, avoiding abrasive brushes that could damage the surface.
