

Electric kettle for hotels h43809

Professional electric kettle for hotels in stainless steel and black polypropylene. 1.2 liter capacity, 1500W power and compact design. CE certified, ideal for courtesy sets in hotel rooms and B&Bs.

The **professional 1.2 liter electric kettle** is an accessory with a sober and elegant design, specifically designed for the needs of the hospitality sector. The combination of the **stainless steel** body and the **black polypropylene** handle guarantees not only a modern aesthetic, but also superior resistance to daily wear in environments such as hotels, resorts and holiday homes.

With a power of **1500 W**, this kettle offers fast and efficient heating, ideal for allowing guests to prepare tea or instant coffee in moments. The compact dimensions and CE certification make it a safe product that is easy to place on any courtesy tray or desk, optimizing the space available in the rooms.
