

## Electric nursing bed with 3 sections h582\_230

3-section electric nursing bed in steel and wood, 216x102 cm. Ti-MOTION motorized adjustment with Trendelenburg functions for healthcare use.

The **h582\_230 electric nursing bed** is an advanced medical device designed to ensure maximum care effectiveness in hospital settings, clinics, and long-term home care. The load-bearing structure in **powder-coated steel** is combined with a bed base featuring **wooden slats**, offering ergonomic support that facilitates patient rest and movement. Thanks to the independent motorization, the bed allows for autonomous management of the headrest, legrest, and bed base height, optimizing both patient comfort and the operations of healthcare staff.

## Technical specifications

- **Structure:** High-resistance powder-coated tubular steel
- **Bed base:** Flexible wooden slats for ergonomic support
- **Side rails:** Aluminum with wood-effect finish for lateral safety
- **Headboard and footboard:** Integrated wooden material
- **Motorization:** Ti-MOTION with 24V DC low-noise control unit (
- **Power supply:** 220V 50–60 Hz
- **Protection and insulation class:** IP 54, Class I
- **Wheels:** 4 swivel units of Ø 125 mm equipped with total brake
- **Headrest adjustment:** Inclination up to 70°
- **Legrest adjustment:** Inclination up to 30°
- **Bed base height range:** From 40 to 81 cm
- **Total frame height:** Minimum 25 cm – Maximum 127 cm
- **Special functions:** Trendelenburg and reverse Trendelenburg with 12° inclination
- **Overall dimensions:** L 216 x W 102 x H 127 cm
- **Bed base surface:** 187 x 80 cm
- **Useful internal space:** 205 cm between headboard and footboard
- **Capacity:** Maximum patient load 135 kg; safe working load 170 kg
- **Total weight:** 99 kg (including 12 kg of motorization)
- **Controls:** Force required for operation 5 N
