

Electric operating table for veterinary clinics h930_35

Veterinary table with electric height adjustment and locking wheels. L. 167 x D. 65 x h. 58-100 cm. Max load lifting column: 200 kg.

Our **veterinary operating table** is designed to offer maximum efficiency and safety during clinical procedures. Equipped with **electric height adjustment**, this table allows for easy adaptation to the optimal position for treating animals. The **lifting column**, with a **load capacity of 200 kg**, ensures exceptional robustness and impeccable stability during use. The **tabletop**, measuring **160 x 65 cm**, is made of **stainless steel** and features **two practical drainage holes** for effective fluid management. The surface is protected by a powder coating, resistant to chipping and scratching, while the **steel base** provides durability and solidity. The **four wheels**, equipped with a **locking mechanism**, allow for easy mobility and secure stability once the table is positioned. Additionally, the table is equipped with **six fixing hooks (three per side)** and **two rails** for mounting accessories, offering versatility and the possibility to customize the equipment based on the clinic's specific needs. For additional comfort, the table includes a **mattress with durable padding**, an **infusion support** and a **non-slip mat for the tabletop**. This operating table represents a complete and functional solution for veterinary clinics, combining practicality and robustness in an elegant and modern design.

Technical features:

- Dimensions: L. 167 x D. 65 x h. 58-100 cm
- Tabletop dimensions: 160x65 cm
- Work surface dimensions: 154x59 cm
- Maximum load: 200 kg
- Weight: 84 kg
- Electric height adjustment via foot switch
- Lifting column with permissible load of 200 kg
- Steel base coated with powder paint, resistant to chipping and scratching
- 4 wheels with locking mechanism
- Stainless steel top with 2 drainage holes Ø 2 cm
- 6 fixing hooks (3 per side)
- 2 rails for mounting accessories (not included in the supply)
- Padded mattress
- Infusion support
- Non-slip mat for tabletop
