

Electric workbench W. 200 cm with riser and drawer unit h826_44

Professional electric workbench in scratch-resistant laminate, 2000x800 mm, with 4-drawer unit, side cabinet and double electrified trunking.

This **professional electric workbench** is designed for industrial environments, electronics labs and precision workshops requiring a structured and high-capacity workstation. The 28 mm **scratch-resistant laminate worktop** ensures a wear-resistant surface, while the integrated configuration with drawer unit and riser optimizes tool organization and power distribution directly at the point of use.

Technical features

- **Total dimensions:** W. 2000 x D. 800 x h. 1540 mm
- **Color:** Grey RAL 7035
- **Work surface:** Top covered in scratch-resistant laminate, 28 mm thickness
