

Electromedical trolley with 4 shelves h13_335

Made in Italy electromedical trolley with 4 shelves of 60x45 cm. Open structure without side rails for quick cleaning, 80 kg load capacity and wheels with brake.

The **h13_335 electromedical trolley** is a professional support designed for the organization and transport of medical and diagnostic instrumentation. Featuring a robust **4-shelf** structure, this trolley solves mobility needs within clinics and medical offices. The design is specifically studied **without side rails** to eliminate dirt accumulation and facilitate deep sanitization operations. Entirely **Made in Italy**, the trolley guarantees stability and maneuverability thanks to the generous 100 mm wheels, offering a reliable solution for the daily management of monitors, control units and medical accessories.
