

Electronic furniture safe for hotels h7602

Furniture hotel safe with digital electronic combination. Key and external emergency power supply.

The **h7602 electronic furniture safe** is a high-quality security solution specifically designed for hotel rooms. Characterized by an elegant design and a particular **sand-colored pebble finish**, this safe combines mechanical robustness and digital technology. The structure features a **6 mm thick laser-cut door** and nickel-plated steel bolts with a diameter of 22 mm, designed to be rotating and anti-cut. The locking system is managed by a digital electronic combination, with bolts manually operated via a handle, offering precise and secure control for the guest.

To ensure service continuity, the safe offers a double emergency option: a **double-bitted key** lock for the exclusive use of management and contacts on the keyboard for external power supply in case the internal battery is exhausted. The interior is optimized with a practical shelf and an elegant mat on the base to protect personal items.

Technical features

- **Structure:** 6 mm thick laser-cut door; 2.5 mm body.
- **Bolts:** Nickel-plated steel, rotating and anti-cut (Ø 22 mm).
- **Lock:** Digital electronic combination with handle operation.
