

Electronic sensor soap dispenser h1219

Electronic deck-mounted soap dispenser in chrome-plated brass, 1500 ml. Infrared system and anti-vandal structure for intensive public restrooms.

This **electronic liquid soap dispenser** is designed for professional deck-mounted installation, combining a minimalist design with high structural resistance. The **linear pump** technology, activated by an infrared sensor, ensures touch-free dispensing, eliminating cross-contamination in high-traffic restrooms. The **chrome-plated brass** structure provides the device with anti-vandal properties and long-lasting durability, making it ideal for public and commercial contexts.

Technical features

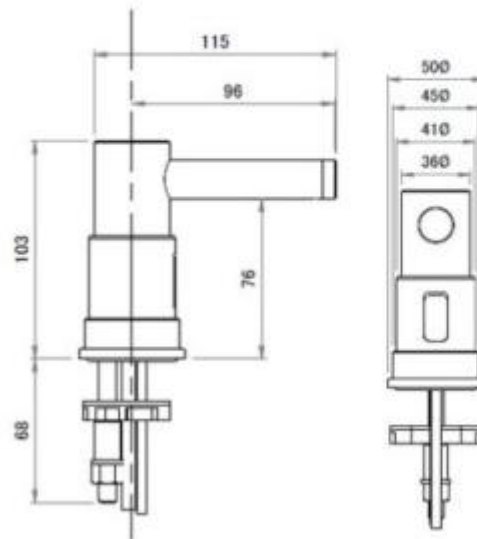

- **Capacity:** 1500 ml
- **Material:** High-resistance chrome-plated brass
- **Dispensing system:** Linear pump with infrared sensors
- **Actuation distance:** Adjustable between 5 and 15 cm
- **Power supply:** Electrical via 6V transformer included
- **Dosage:** Calibrated dispensing between 1 and 1.5 ml per cycle
- **LED indicators:** Dedicated signaling for low batteries, refill needed, and excessive soap density
- **Installation:** Deck-mounted with safety fixing
- **Protection:** Model with integrated anti-vandal system
