

## Electronic wall-mounted anti-splash washbasin with dispenser h509\_126

Electronic stainless steel wall-mounted washbasin with anti-splash guards and automatic soap dispenser. W. 352 x D. 303 x h. 551 mm.

**Stainless steel washbasin** with **electronic control** designed for professional and industrial kitchens, with a **compact, modern and minimal design**, designed to allow optimal and uniform hand washing, **with low water and soap consumption**, avoiding manual contact with the structure itself. The **dispensing of mixed water** takes place **through multiple outlet points distributed on the surface of the basin** and directed in such a way as to allow perfect hand washing. The structure is **equipped with rear and side anti-splash splashbacks** with a rounded design, and is **complete with an automatic soap dispenser** which ensures maximum hygiene, avoiding direct contact with the hands and any type of cross-contamination. The structure features **rounded corners** and is free of sharp edges, ensuring maximum safety for the user. **Includes non-return mixing valve** to regulate the flow of hot and cold water.

### Technical features:

- Dimensions: W. 352 x D. 303 x h. 551 mm
- Basin height: 115 mm
- Weight: approx. 5.20 kg
- In stainless steel
- With electronic control
- Wall-mounted
- Innovative and rounded design
- Innovative water dispensing system through numerous outlet points
- Anti-splash splashbacks on the back and sides
- Automatic soap dispenser included
- Non-return mixing valve

- Reduced water consumption
