

## Electronic wall safe for hotels h3107

Wall safe with motorized electronic lock, laser cut, 2 bolts. Dimensions: H 230 x W 360 x D 195.

This **wall safe** combines the high precision of **laser cut** technology with the practicality of a **motorized electronic lock**. Designed to ensure reliable protection, the structure features internal welds made with a robotic system and special anti-pry edges that raise the security level. The electronic unlocking system manages the motorized drive of the treated steel bolts, while the interior is finished with a scratch-resistant velvety mat to protect delicate items. The external finish is made by epoxy powder coating, ensuring resistance and durability over time.

Lock operation is intuitive and automated. To close, simply shut the door and use the dedicated key combination, while opening is done by entering your personal code, with acoustic signals confirming the operation. The system also allows **changing the code** whenever desired, which must be done only with the door open and the bolts in the open position.

## Technical specifications

- **Technology:** Laser cut.
- **Lock:** Electronic release with motorized bolt drive.
- **Security:** Special anti-pry edges and robotic welding.
- **Bolts:** No. 2 in treated steel.
- **External Dimensions:** W 36 x D 19.5 x H 23 cm.
- **Internal Dimensions:** W 34 x D 14 x H 21 cm.
- **Weight:** 12.3 kg.
- **Finish:** Epoxy powder coating.
- **Interior:** Scratch-resistant velvety mat.

### To close the safe:

1. Close the safe door.
2. Press the “R” key.
3. Press the “C” key.
4. The lock will close after an acoustic signal.

### To open the safe:

1. Press the “R” key.
2. Enter your personal code (Factory code: 0-0-0-0-0-0).
3. The safe will open after an acoustic signal.
