Elephant spring rocker h172_53

Elephant-shaped spring rocker made of resistant outdoor material, 80x20x80 cm, equipped with handles and non-slip footrests for private areas.

The **h172_53** elephant-shaped spring rocker is a play solution designed to enrich residential green areas and private gardens. Thanks to its iconic design and bright colors, it stimulates the child's interaction, promoting the development of motor coordination and balance in total safety. The structure is designed to withstand the mechanical stress of rocking and prolonged exposure to atmospheric agents, ensuring a long operational life without the need for frequent structural interventions.

Technical features

- **Dimensions:** W 80 x D 20 x H 80 cm
- **Design:** High visual impact elephant-shaped outline
- **Safety:** Equipped with ergonomic handles and footrests with non-slip surface
- **Intended use:** Exclusively for private/residential use
